Message from Executive Director Desk

Welcome to the second e-newsletter from AIIMS Deoghar. I extend my heartiest greetings to the achievements accomplished by students, faculties, and staff. Building an institute requires lots of hard work, effort, and cooperation among different stakeholders. The pace with which the development activities going on is commendable. We are aiming to be leader in the field of patient care, education, and research. Recent developments like – OPD & IPD services, Adverse Drug Reactions Monitoring Centre, Institutional Herbal Garden, adopted five villages under Unnat Bharat Abhiyan and PSA Oxygen Generation Plant has been instrumental in the well-being of the community.

Patient care is of great significance in any medical institute. We started our patient care services in the OPD this year; it gives me huge pleasure to mention that we have made a strong impact in providing quality healthcare at a minimum cost. Till date, more than 1.25 Lakhs patients get benefited from our OPD services and more than 1 lakh from laboratory facilities.

Our much-awaited IPD was inaugurated by our respected Hon'ble Prime Minister of India Shri Narendra Modi ji 12th august 2022, in presence of our institute president and other dignitaries. And now this IPD has already started its timeless imperishable journey to provide smooth health care service continuously with the help of our well-trained dedicated health care team.

At present world is facing a health crisis in the form of a respiratory viral infection. Which has been causing concern over the last few months, with an alarming rate of transmission. The medical community has an added responsibility towards the society and, we as professionals, need to go above and beyond our duty to serve the society. With pride, I state that we established COVID care facilities with ventilator support. While on one hand people across the India and around the globe are largely confined to their homes with business and educational institutions all shut down in an attempt to contain the virus, on the other hand we the doctors, nurses, health care workers, medical staff members were battling to fight against our micro particulate invisible enemy from the front. Our doctors and health care workers of AIIMS DEOGHAR also were putting their own lives at risk with selfless determination for the sake of saving lives and effectively defeated our enemy and came out of that climacteric Covid era.

I hope the coming days brings happiness, peace and health to you & your loved ones.

Happy Reading

World Patient Safety Day (17.09.2021)

World Patient Safety Day- Established by world health assembly, First celebrated on 17th Sept'2019. As per data, 810 women died every day in 2017 from preventable causes related to pregnancy and childbirth, 94% of all maternal deaths occur in low and lower middle-income countries. WHO decided to keep theme for World Patient safety Day 2021 as "safe maternal and newborn care" and slogan as "act now for safe and respectful childbirth". Dignitaries like Dr T S Ravikumar, Convenor IRAPS & President, AIIMS, Mangalagiri, Dr Saurabh Varshney, Executive Director, AIIMS, Deoghar, Dr Gitanjali Batmanabane, Director, AIIMS, Bhubaneswar, Dr Mukesh Tripathi, Director, AIIMS, Mangalagiri, Director of National Institute of Design, Vijayawada, Medical Superintendent and Dean of all the INI's and Many Faculties were present. As patient harm due to adverse events is 10th leading causes of death worldwide, most of these deaths and injuries are avoidable, 1 in 10 hospitalized patients experience harm, with 50% being preventable, around two-thirds of all adverse events resulting from unsafe care, therefore all the dignitaries stressed to implement strategies to reduce harm related to health care.
